Form Fix for anybody!

FORM FIX is a comfortable relax cushion with the shape of a horseshoe. It adjusts completely to the contours of the body and can be modelled on any shape required. The **FORM FIX** cushion is elastic in the round area which provides good support and makes it easy to use in any shape required. The filling of the **FORM FIX** cushion is unique. The little air-filled balls enable the unique flexibility of this **FORM FIX** cushion. This special filling also provides the correct temperature and humidity level, which makes the cushion feel good and makes the body relax actively.

Rest and relaxation in any situation.

The **FORM FIX** relax cushion offers multipurpose use, for medical purposes as well as for use at home.

Reading a book becomes really relaxing, when using the **FORM FIX** cushion. When putting the **FORM FIX** cushion around you, it supports the vertebrae in the lower back and it also relieves shoulders and neck. Therefore the **FORM FIX** cushion is extremely handy when reading in bed.

Form Fix voor moeder en kind

During pregnancy the spinal column has often to put up with a lot of tension. It may become a problem to find a relaxed position during the last months of pregnancy. In that case the **FORM FIX** relax cushion is a solution. The cushion offers extra support to either the back or the belly.

In both side positions the **FORM FIX** relax cushion replaces the several pillows, that were used in the past to lie comfortably.
